Defined Benefit Pension Plan

If you terminate employment after five (5) years you will be considered a vested employee and will be able to collect a monthly annuity beginning at age 55. Your contributions to the plan will be retroactive to your date of hire and will be deducted in a lump sum from your first paycheck after you enroll.

For example: If your pay is \$500 weekly, your defined contribution would be 6% or \$30.00. If you enroll in the 4th week, a sum of \$120.00 for all 4 weeks would be taken out at one time.

If you are hired by PGW after January 1, 2011 and fail to make and return to the Human Resources Department an affirmative election specifying a pre-tax savings contribution amount or your desire not to participate, you will automatically be enrolled in the plan 30 days following your date of hire at a rate equal to 2 percent of your compensation for the plan year. In other words, 2 percent of your compensation will automatically be deducted from each of your paychecks and deposited into your account under the plan.

Employees with 30 days of company service can elect to defer from 1 to 70 percent of their gross weekly earnings either pre-tax or after-tax (Roth) for investment into PGW's Deferred Compensation Plan. These contributions may reduce your Federal Income Tax while providing for your future financial needs. Your deferred contribution is limited by IRS rules. PGW has no responsibility for the investment selection process. PGW will match 50 percent of an employee's own contributions into the fund up to a maximum of \$1,000 per year.
