Save Energy, Lower Your Bill

No one wants to pay more than they have to. Check out these energy savings tips to help lower your utility bill as temperatures fall:

Install a smart thermostat to maximize energy savings. You can save \$70 on the purchase of a smart thermostat at PGWorks.com.

Set your thermostat at 68 and lower it a few degrees at night and when you are away from home.

Seal cracks and openings that allow cool air to enter your home, especially around doors and windows.

Cover pots and pans with a lid to help food cook faster.

Set your water heater temperature to 120°.

For more energy tips, visit us at PGWorks.com or follow @MyPGW on Facebook, Instagram and Twitter.

PARTS & LABOR
Appliance Protection Plan

PGW has you covered for both parts AND labor

On-call PGW expert technicians make sure your covered natural gas appliances are working for you when you need them.

WALK-INS WELCOME

Get in-person assistance with your energy needs

PHILADELPHIA'S NETWORK OF NEIGHBORHOOD ENERGY CENTERS (NEC) HAVE PGW-TRAINED SPECIALISTS READY TO ASSIST YOU IN PERSON.

Customers can:

- apply for programs like CRP or LIHEAP.
- gain tips on lowering your energy bills.
- register for free conservation workshops.

Most NEC locations are open five days a week during normal business hours. There are more than a dozen locations.

Scan this QR Code or go to ecasavesenergy.org to find a Neighborhood Energy Center.

THINK YOU SMELL GAS?

Natural gas has an unpleasant, rotten egg-like odor for easy detection and your safety.

If you think you smell gas, leave the area immediately, then call PGW at 215-235-1212. Remember, if you think you smell gas:

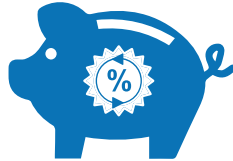

- **NEVER** flip the light switch on or off.
- **NEVER** use electrical devices.
- **NEVER** use an open flame, matches or lighter.
- **NEVER** attempt to locate the source of the gas leak.
- **NEVER** try to shut off any natural gas valves or appliances.
- **NEVER** re-enter the building or return to the area until a qualified utility representative says it is safe to do so.
