

GOOD GAS NEWS

June 2015

WHAT DOES ONE LESS WORRY MEAN TO YOU?

For more than 60,000 low-income PGW customers, it means more money in their pockets.

That's because they're enrolled in CRP, Philadelphia Gas Works' customer assistance program.

By enrolling in CRP, some eligible customers have been able to cut their gas bills by 40, 60 even 70 percent. In fact, over the course of a year the average discount is 50%.

No matter how much they save, every enrolled customer receives a consistent, discounted monthly bill to help them better afford their bills and keep gas service on.

More money, more opportunity to change their situation, and one less worry.

If you're a low-income PGW customer this could be the easiest way to one less worry.

Check out CRP at pgworks.com to see if you qualify, today.

Connect with your neighbors and PGW on Nextdoor

Open your door to:

- Better Resale Price
- Money in Your Pocket
- Increased Comfort
- Energy Savings

Visit PGWenergysense.com
before this program ends

 | **energysense**
Good energy makes good sense.

Did you know?

As a PGW customer, you are one of more than 71 million natural gas users in the United States (and one in a half million right here in Philadelphia).

Providing natural gas service takes the work of nearly 3 million Americans across all 50 states, including PGW's 1,600-plus employees.

Call 811 before you dig

Working on a project that requires digging? Call **8-1-1** first, or (800) 242-1776 from a number outside Pennsylvania.

This free service ensures underground utility lines are marked, preventing damage to service lines and keeping you and your property safe. Remember, **it's the law.**

WHY SWITCH TO NATURAL GAS?

- Natural gas is piped directly to your home without the hassle of orders or deliveries.
- Natural gas rates are cheaper than oil.
- Natural gas is the cleanest burning fossil fuel.

Switch to natural gas heating and save

Winter was tough, but tougher on those still using oil to heat their homes. Did you know that as a PGW customer you can receive a \$500 credit when you switch from oil to natural gas heating? It's true.

Compared to oil-powered heating systems, natural gas is cheaper and more energy efficient. So, on top of the initial \$500 rebate, you could see hundreds of dollars in additional savings each year.

To apply for a rebate, calculate your fuel cost savings or learn more, visit pgworks.com or call **215-684-6700**.
