PROTECT YOUR FAMILY FROM CO POISONING

Carbon monoxide is a colorless, odorless gas that can lead to sickness, even death.

TO PREVENT CO POISONING:

- Install a battery-operated CO detector on each floor of your home to alert you of leaks.
- Schedule your annual natural gas equipment inspection.
  - Enroll in our low-cost Parts & Labor Plan and Check and Adjust service to have a certified PGW technician perform equipment inspections and repairs.
- Replace CO detector batteries twice a year.
- Never use an oven or stove as a heating source.
- **Call 9-1-1 if you suspect CO poisoning.**

SEASONAL SAFETY TIPS

USING NATURAL GAS

- Natural gas has a rotten egg-like odor.
- If you smell natural gas, leave the area immediately, then call PGW from a safe location: 215-235-1212.

COOKING

- Stay in the kitchen while frying, boiling or broiling food.
- Keep anything that can catch fire away from the stove.
- Turn pot handles toward the back of your stove.

DECORATING

- Place candles where they won't be knocked down.
- Position tree at least 3 feet away from fireplaces, radiators and other heat sources.
- Replace light sets that have cracked sockets or frayed wires.

PGW joined the Philadelphia Phillies and Pennsylvania Horticultural Society to deliver 2,000 trees to plant across our region. The delivery is thanks to our Home Runs for Trees program - for every home run hit by a Phillies player, a tree is planted. This was the largest delivery in the history of Home Runs for Trees.
