855-PGW-SOLVES

Improve comfort. Increase value. Spend less.

Today's high-efficiency, natural gas-fired space and water heating equipment require less fuel to keep your home warm and meet your hot water needs compared to older, less efficient models.

ENERGY STAR® tankless water heaters:

- Provide a continuous flow of hot water.
- Last longer than conventional water heaters, with an average lifespan of 20 years.
- Reduce the risk of leaks and water damage.

EnergySense residential equipment rebates help you:

- Enjoy the benefits of greater comfort.
- Increase the value of your home or property.
- Contribute to a cleaner environment.
- Get more for your money!

Who should apply:

Homeowners, landlords, small businesses and building owners with residential-sized equipment less than 300,000 Btu/h

RESIDENTIAL EQUIPMENT

EQUIPMENT	ELIGIBILITY	REBATE	
		1ST UNIT	ADDT'L UNITS
Furnace	≥95% AFUE	\$350	\$250
Boiler	≥94% AFUE	\$900	\$700
Combi Boiler*	≥94% AFUE Input Capacity ≥ 205 MBH	\$1,300	\$1,000
Tankless Water Heater*	ENERGY STAR Input Capacity ≤150 MBH	\$350	\$350

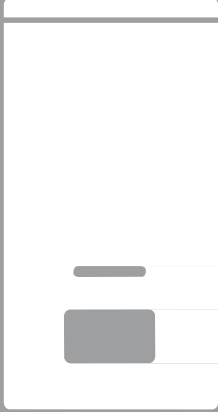

*Combi Boilers & Tankless Water Heaters must have minimum gas pressure requirements ≤ 4.5" water column. See Qualified Product Lists on website.

For multifamily properties, incentives are capped at \$25,000 for projects that include eligible measures from only one measure category, while higher incentive caps apply to projects that incorporate multiple measure categories, up to \$50,000. Visit pgwenergysense.com/program-updates for more information on applicable measure categories and incentive caps.

Incentives across all projects are capped at \$150,000 per customer per year.

EnergySense rebates are available from 09/01/2020–08/31/2023. Rebates are awarded on a first-come, first-served basis and are subject to available funds.

Contact us at energysense@pgworks.com or 855-749-7658 to learn more, or for help with your project application.

Install your eligible, natural gas-fired space and/or water heating equipment.

To qualify, all equipment must meet minimum efficiency and other eligibility requirements listed on front.

Visit AHRIdirectory.org or energystar.gov to determine if your equipment qualifies.
