**OCTOBER 2018**

# HAVE YOUR APPLIANCES CHECKED REGULARLY

For your safety it is important to have major electric, natural gas, or other fuel-burning appliances and equipment – such as furnaces, boilers, ranges, water heaters, and clothes dryers – periodically inspected. If you're buying Parts and Labor (PLP), don't forget to add Check and Adjust.

Failure to have this equipment properly maintained could lead to property damage, personal injury, or even death. Have a trained professional perform a safety inspection on all fuel-burning appliances each year.

## The trained professional should check to make sure:

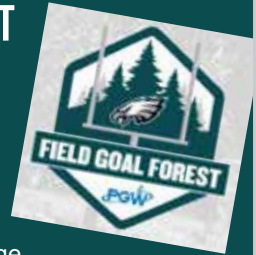

- All appliances are installed and operating properly.
- All burners receive enough outside/fresh air for complete combustion.
- All vents, chimneys, and flues are clear and well connected.

## Other Safety Tips:

- Never use an oven or range as a space heater.
- Never let the car run in an attached garage.
- Never sleep in a room with an unvented gas or kerosene space heater.
- Never operate gasoline-powered engines (generators, chain saws, etc.) in enclosed spaces.
- Never use a barbecue or charcoal grill indoors.

## PGW TEAMS WITH PHILADELPHIA EAGLES TO PLANT FIELD GOAL FOREST

Sustainability is a cornerstone of PGW, and the Philadelphia Eagles. We're teaming up again to encourage our community to preserve the environment we all share through the Eagles' Field Goal Forest program.

For every field goal the Eagles make this season, PGW will plant 10 trees in the Eagles Forest and around Philadelphia. The program is part of the Eagles' "Go Green" initiative.

Join us as we continue to cheer on the Super Bowl Champions, while helping sustain our environment.

Follow us @MyPGW, and like us on Facebook.com/MyPGW to get updates on the number of trees planted this season.

## Apply early!

# LIHEAP

## Simple. Quick. Worth it.

Get a head start on your cold weather gas bills. You know that a LIHEAP grant means extra money to help pay your PGW heating bill. If you received LIHEAP last year, your personal application form is on its way!

**To make sure you don't miss out on grants up to \$1,000:**

- Check 'natural gas' in **Section 4**
- Write 'Philadelphia Gas Works' and your PGW account number in **Section 6**
- Send 30-days proof of income with your application

**If you don't receive an early application, apply for LIHEAP beginning Thursday, November 1.**

A photograph of a LIHEAP application form. Section 4 is visible, asking for the main heating source. The options are Electric, Fuel Oil, Coal, and Natural Gas. The 'Natural Gas' option is checked. Section 6 is also visible, asking for the name and address of the utility company or fuel dealer. The name 'Philadelphia Gas Works' and the address '500 W. Montgomery Ave.' are handwritten in the form.
